01-444-09-1308 UDS Kitchen Equipment Replacement

July 21, 2009

Premier Equipment and Northern Air have wrapped up this campus wide kitchen equipment replacement project with timely installations and prompt attention. These two worked quite well together and it was a pleasure to work with both of them. Nelson Hard again provided valuable insight and assistance and John Dunne & Steve Hanson contributed greatly to the project as well. We have truly enjoyed putting together another project for UDS.

Jim Koerner (L) and Dave Turner (R) oversee the unloading of a piece of new equipment.
